Want that **RETRO** look?

Nantucket Sinks now offers a variety of utility basins – Deep basins allow for large gallon capacity for maximum function. Multiple sizes in both cast iron from our new Anchor Collection and 16 Gauge stainless steel. These materials deliver unparalleled dependability for years of use. Center drain location provides optimal drainage. Ideal for use in your laundry room, mud room or your kitchen!

**Introducing... From our NEW Anchor Collection, the CI-2418W and the CI-2218W Sinks.**

As part of our New Anchor collection, either of these wall mounted sinks will be a beautiful accent for your home. These vintage cast iron utility sinks are perfect not only for functionality but also as space savers.

The white enamel glaze coating protects against scratching, chipping and burning. Each sink has a 3 inch drain hole and 2 pre-drilled holes for faucet installation. Mounting bracket(s) are included for each. These sinks have a polished stainless steel rim adding to their own uniqueness. Dimensions may vary slightly from actual. Both are cUPC certified and include a limited lifetime warranty.

**For stainless steel lovers - there are the SR2522-12-16 and the SR2318-12-16.**

Either of these small radius stainless steel sinks from our Pro Series Collection has a fresh modern, industrial look while providing a lifetime of space-saving functionality. Fabricated from premium gauge T-304 stainless steel for maximum durability, the deep basin on each sink easily accommodates dishes or laundry.

The bottom of each has channel grooves to divert water for proper drainage. These sinks have thick rubber dampening pads to limit sound. Their finishing process helps keep our stainless steel corrosion-resistant to rust and oxidation. The satin finish makes daily maintenance a simple rinse!
